ABSTRACT

This report presents an overview of technical support, API integration, and automation in cloud-based subscription billing systems, based on practical experience gained during an internship using Zoho Billing. The internship provided hands-on exposure to managing recurring billing operations such as subscription handling, invoice generation, payment tracking, and customer management within a SaaS environment.

During the internship, various customer issues were analyzed and resolved, including configuration errors and API integration challenges. Practical experience was gained in working with REST APIs, including request validation, authentication, and debugging using tools like Postman and JSON data handling.

The internship also involved automation using Deluge scripting, where custom functions were developed to improve workflow efficiency. In addition to technical knowledge, professional skills such as communication, problem-solving, and time management were strengthened through real-time customer interaction.

Keywords: Subscription Billing, Technical Support, API Integration, Automation, Zoho Billing, SaaS, Deluge Scripting, REST APIs, Customer Support Systems.

ACKNOWLEDGEMENT

I thank **Dr. N.Vasudevan**, Principal, for his valuable suggestions and support during the course of my research work.

I thank **Mr. R. Rajavarman,, M.E.,(Ph.D).,**Head of the Department, Computer Science and Engineering for his valuable suggestions and support during the course of my research work.

I am extremely indebted to our internship coordinator **Ms. Dhivyabharathi , M.E**, Assistant Professor, Computer Science and Engineering, for her valuable suggestions and support during the course of my research work.

I would like to express my sincere gratitude to my managers, team lead, mentors, and all the senior members and developers at Zoho Corporation for their continuous guidance, support, and encouragement throughout the internship. Their valuable insights, technical expertise, and willingness to share knowledge greatly contributed to my learning experience and helped me gain practical exposure to real-world systems.

I also thank the faculty and non-teaching staff members of the Computer Science and Engineering, K. Ramakrishnan College of Technology, Trichy, for their valuable support throughout the course of my research work.

Finally, I thank my parents, friends and my well wishes for their kind support.
